Upper Payment Limit (UPL) Supplemental Payments

NYS Department of Health has recently announced that the 2018 & 2019 Clinic Upper Payment Limit (UPL) has been approved. This authorizes a supplemental payment for county operated diagnostic and treatment centers, the first since 2011, and is the difference between the FFS Medicaid payment and the Medicare payment for the same service. The Medicare payment is the “Upper Payment Limit” – or a cap on payment.

In aggregate, total costs and total visits reported on the CFR were compared with Medicaid clinic payment and utilization data from the Medicaid Data Warehouse; County operated clinics’ FFS Medicaid spending was less than what Medicare would have paid.

Counties are responsible to match 50% of the gross payment amount to draw down the supplemental funds and will receive formal notice from the State about how to complete the process.

Stay tuned for further guidance from the Conference of Local Mental Hygiene Directors (CLMHD).
